SEASONAL INSPIRATION

This season marked the start of a new chapter that has been years in the making. Instead of travelling to new locations to feel inspired, we took a journey inward. We asked ourselves: who do we want to be? Where do we want to go? How can we shape the future?

The answers we found are at the heart of this season. We redesigned our entire Classics line for a new generation of Creatives. People who put themselves out there. People who break new ground and don’t take no for an answer. These products are made for, and inspired by, people who are unapologetically themselves — Future Classics.

Put Yourself Out There™

Put Yourself Out There™

Pack your day with creativity.

Embrace the unfamiliar, discover the undiscovered, get to know the unknown. Stepping outside of your comfort zone is never easy, but let's face it, good things happen when you put yourself out there. It's where you'll find the best part of life.

HERSCHEL SUPPLY COMPANY
FUTURE CLASSICS
SEASON THREE
2023

Meet the Future Classics.

This season, we took from the best of Herschel Supply and innovated for the journeys of today's Creative.

Our line of signature styles is reinvented with recycled EcoSystem™ fabrics, updated silhouettes, expandable water bottle pockets, EVA padded shoulder straps and organizing features to keep all the little things in place.

WHY WE MADE THIS

We wanted to keep making the same classic bags to help Creatives on their daily journeys. But the world looks a little different than it did in 2009 when we designed our first backpack. We care about our planet and we know our Creative does too. So, we spent the last two years meticulously reinventing our line.

We want to make classics that our Creatives will carry with them for years to come, so we took feedback from our customers to add value wherever possible and make our products even better than before. We designed our Future Classics with updated, streamlined silhouettes. We made them even more comfortable to carry. We added refined feature sets for today's journeys. And we made them all with 100% recycled EcoSystem™ materials that are kinder to the planet.

HERSCHEL SUPPLY CO.

EcoSystem™

This season, we relaunch all of our recycled materials under the trademark EcoSystem™. Our soft EcoSystem™ fabrics are created with post consumer water bottles diverted from the landfill, while our EcoSystem™ hardshell material is made with post use road barricade polycarbonate. Our materials are certified by the Global Recycle Standard, a third party organization that verifies the recycled content of textiles and products.

Our goal is to reduce our impact on the environment. We're innovating new processes and making products that are kinder to the planet — products that use better materials and are free of anything toxic. By 2024, almost all of our bags will be made with recycled fabrics.
