JOIN THE FREE MOVEMENT

Arcade is hard-wired to innovate and do better. Our journey started with revolutionizing the way a belt can function and move, but we haven't stopped there. Born in the mountains, the lessons from our time spent outside fuel us to make more original and sustainable products that perform in the outdoors, and everywhere else. Join us in the movement to free your motion, and free your mind.

MADE TO MOVE

Our belts are meticulously made to be freeing, never restricting. Rigorous testing goes into every thread and buckle detail, creating unmatched quality and function, so you can move freely.

The Arcade product line is now more expansive than ever before. Our commitment to new innovation reflects the possibilities we see in redefining movement in all aspects of life.

LIFETIME GUARANTEE

Built to last with high-quality performance grade components, tested in the field and in the lab.

UNRESTRAINED FUNCTION

The perfect balance of performance stretch webbing and low-profile buckles, providing comfort while eliminating bulk and pinch points.

CONSCIOUSLY SOURCED

We prioritize ethical materials in the construction of our belts. 95% of our belt styles are made from post-consumer REPREVE® recycled yarn, leaving a smaller carbon footprint.

A2

Greater than the sum of its parts, the A2 belt is the result of repeated testing and listening to our customers. The new standard of functional active belts, the A2 levels up on comfort, durability, and ease of use—pairing our performance stretch webbing with a new proprietary 3-piece buckle system. Metal-free and machine washable materials are the cherry on top.

PERFORMANCE STRETCH

Performance webbing firmly stretches and moves with your body. Made with REPREVE® recycled yarn.

CUSTOM FIT

Micro-adjustability lets you dial in an exact fit.

CONTOURED BUCKLE

Molded to follow the curve of your form to maximize comfort and secure it.

TRAVEL FRIENDLY

Metal-free, durable buckle makes travel security easy.

MACHINE WASHABLE

Washer and dryer safe, the belt retains its performance during wash and dry cycles.

EASY ON & OFF

New tapered buckle design feeds easily through belt loops and releases with less pressure.

REIMAGINE REUSE

Our culture is shaped by our commitment to making better products. Better performing, and better for the environment. In the Fall of 2022, we transitioned our original stretch webbing to certified REPREEVE® post-consumer recycled yarn, ushering in a new standard of uncompromising function and reduced carbon footprint. Today, we source REPREEVE® yarn for 95% of our belt styles. With each new product we make, we test materials that deliver quality and performance at the highest level, and are as sustainable as possible.

By choosing to make our belts with REPREEVE® post-consumer recycled yarn, by the end of 2024 we expect to:
