SPRING & SUMMER - 2023

CHANGE FOR GOOD

Our journey has led us here. To a place of designing and making better, more sustainable belts for our environment. A milestone was reached in the Fall of 2022, and our commitment to changing for good continues as every single Arcade belt is now being made from post-consumer, certified REPREVE® recycled yarn. A formula of gold standard sourcing and fabrication that is fully traceable, all of our products now leave a smaller footprint without sacrificing comfort, durability, or functionality. We are just getting started, but we are another step closer in our daily goal of reducing the impact we have on our environment.

By choosing to make our belts with post-consumer REPREVE® recycled yarn, by 2024 we expect to:

REPURPOSE
3 MILLION
PLASTIC BOTTLES

REDUCE
300K KG
OF CO2 EMISSIONS

SAVE
3.1 MILLION
LITERS OF WATER

INTRODUCING A2

The result of challenging the status quo and redefining new levels of function, purpose, and quality – the Arcade A2 belt is fine-tuned for more progressive adventures. Countless hours of tinkering in the lab and testing in our outdoor playgrounds, the A2 was perfected to free your movement and free your mind – and change the way you think about belts.

HOWEVER YOU MOVE, WE MOVE WITH YOU.

We design by doing. We build our belts to move as freely as you do, which is why we choose the highest-quality fabrics and most durable components. It is in Arcade's DNA to be an agent of change that re-writes the rules – by using certified REPREVE® recycled yarn in all belt webbing, with the introduction of an all new 3-piece ergonomically contoured and highly durable buckle now in the A2 – and stamping all of our belts with a lifetime guarantee for an unlimited life in motion.

RESPONSIBLE

Made from post-consumer, certified REPREVE® recycled polyester for a smaller carbon footprint, while advancing performance and functionality.

COMFORTABLE

A perfect balance of controlled stretch webbing and low-profile, long-lasting buckles eliminates unnecessary bulk and pinch points.

LIFETIME GUARANTEE

Built to last and thoughtfully crafted with high-quality performance grade components tested in the field and in the lab.

ARCADE DESIGNED

VERNAN KEE

DESIGNS INSPIRED BY HERITAGE

A truly original artist, Vernan was born and raised without commercialized influences. His inspiration comes from something closer to heart – the land and his family. Following his time in the military, it was art and the outdoors that provided him a path to healing. This series is full of the sharp, geometric edges of traditional Navajo rugs that echo the landscape of his home. We're grateful to have Vernan share his heritage through these designs.
