

CARIUMA

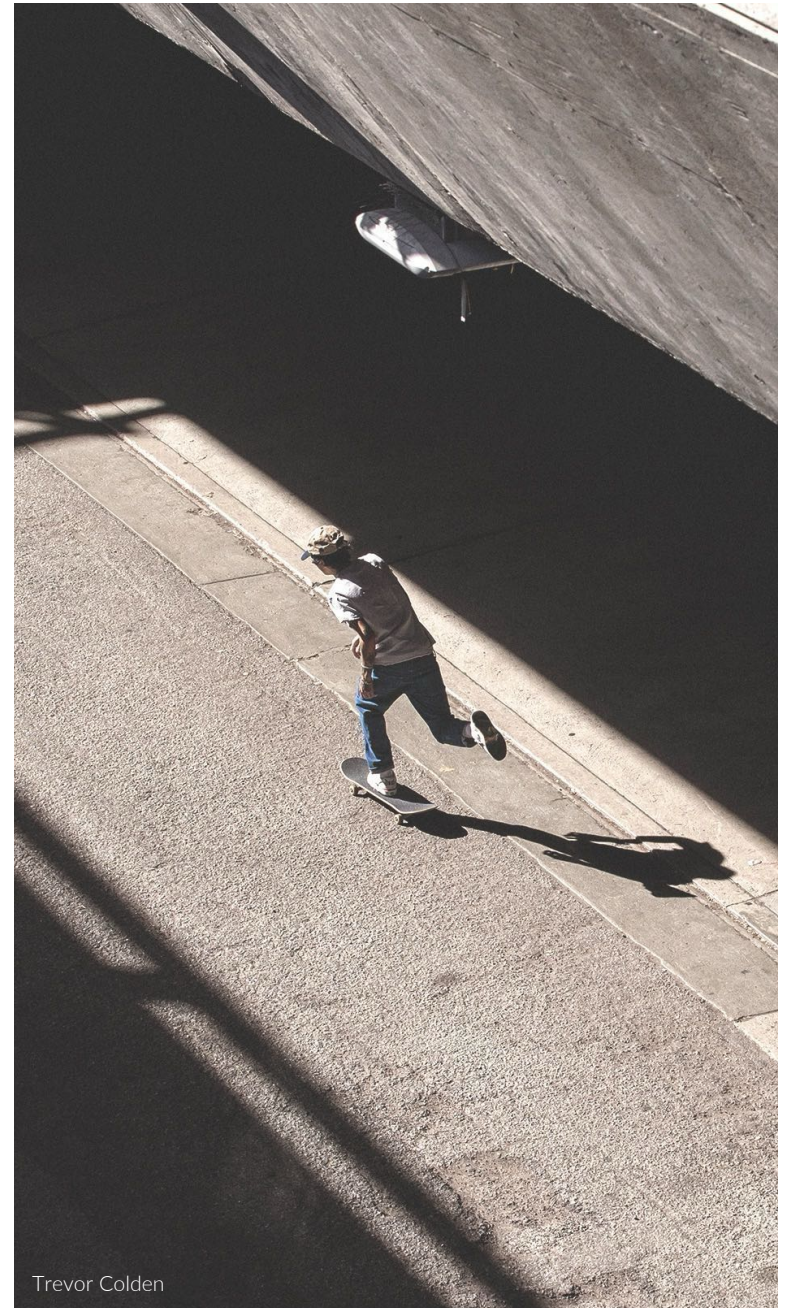

Fall Winter 2025 – Fashion/Lifestyle Catalogue

Laura Enever

Made for the Dreamers,  
Tree Planters & Board Riders.

Trevor Colden

Cariuma stems from our passion for skateboarding, surfing, snowboarding, and a commitment to our planet and the people on it.

Long story short, after working together for a few years and bonding over our shared respect and love for nature's beauty and power, we decided to join forces to start Cariuma.

As skaters and surfers, we wanted to create something that would merge style, ethics and performance. We knew industry-standard sneakers and skate shoes were lacking in soul and quality, and that the big corporations didn't care about sustainability or social responsibility.

We've made it our mission to reinvent the sneaker game, by creating premium shoes that balance aesthetics, durability and comfort. They are created to make you feel good in them and the positive impact they make.

Restoring our environment is about more than just doing what we think is right, it is an integral part of our mission and value system as a company. As a certified B Corp organization, we are leading by example in a broader effort to reshape our industry and our planet for good.

We hope you love our shoes as much as we love creating them for you.

-Fernando & David

Our mission is to help restore the biodiversity and carbon-capturing potential of rainforests. Since June 2020, we have committed to planting two trees for every pair of sneakers sold.

Till date, we have planted over 2.5 million trees. Our ecological restoration work starts in the Brazilian rainforest, where only 12.4% of the forest floor remains, following widespread urbanization and agricultural logging. With the goal of restoring biological diversity, we plant over 120 native tree species.

This restorative work allows the forest to grow and flourish over time, by reestablishing the balance that allows natural processes to function as they would without human intervention.

Fall 2025  
Sell-out period: July to October 2025

# Salvas

Salvas defines beauty in simplicity. They're the blue jeans, the white tee—a staple for the sneaker age. Salvas finds footing in playful details like subtle perforation and contrast colors, though comfort remains the common thread. They're built to last, made for any occasion, and designed for everyone.

A photograph of a snowy winter landscape. In the foreground, several thin, dark stems rise from a snow-covered ground, each topped with a small, round, snow-laden flower head. The background is a soft-focus view of bare trees and a bright, hazy sky, suggesting a winter day. The overall color palette is muted, with whites, greys, and dark browns, accented by the pale blue of the sky.

## Ethical Factories

Our employees and craftspeople remain at the center of everything we do. Creating a safe, supportive space to come to work every day is vital to our collective well-being.

We conduct yearly audits to maintain our factories' certification in WRAP-Gold and HIGG Index, the Sustainable Apparel Coalition certification. In keeping with our Code of Conduct, our team and suppliers are committed to upholding internationally recognized principles of social justice and labor rights. Our factory partners ensure their employees earn a comfortable, living wages and adhere to a manageable schedule for a healthy work/life balance, based on International Labor Organization (ILO) policy.

From Day 1, we've worked to strike a balance of profit and purpose—a balance that's guided every decision we make, to put people and our planet at the center of everything we do. We aspire to be an agent of change in the industry: doing things the right way, giving back, and empowering others by example.

We are honored to be a member of the global B Corp community, and part of this greater movement to make business a force for good.

# Our materials

We curate premium raw materials in order to yield a smaller footprint and create high-quality sneakers that are built to last.

## Organic Cotton

Our durable cotton canvas is certified organic, pesticide-free, grown with less water than conventional cotton, and results in a lightweight and breathable fiber.

## LWG Suede & Leather

Our leather and suede materials are sourced from Leather Working Group Gold-Rated suppliers who, farm to production, observe the highest standards of environmental and social responsibility. None of our materials are sourced from areas deforested for cattle-farming purposes.

## Raw Natural Rubber

Our perfectly-weighted natural rubber is gathered from the hevea brasiliensis tree through ethical "tapping" (removing a milky sap from its bark). So, no trees are ever harmed in the production of our sneakers!

## Sugarcane

Our sugarcane is sourced from Brazil and relies on rainwater to thrive (not traditional irrigation). It's a fully-renewable, bio-based resource that grows quickly and naturally removes carbon from the atmosphere. Our sugarcane is certified by I'M GREEN.

# Our materials

We curate premium raw materials in order to yield a smaller footprint and create high-quality sneakers that are built to last.

## Cork

Cork is a natural and sustainable material. To procure it, it is carefully scraped from the cork tree so that the tree remains intact and can form new bark.

## Mamona Oil

Mamona is a plant-based and organic alternative to petroleum. We chose this natural oil in order to significantly decrease our use of virgin plastics and increase the natural content of our products, thus delivering a much greener foam.

## Recycled PET

The vast majority of plastics used in our upper, laces, labels and threads are derived from recycled plastic bottles. Our recycled PET is certified by Global Recycled Standard.

## Bluesign Dyes

We chose Bluesign-certified chemicals to dye our materials to ensure no hazardous chemicals would endanger our workers. Working with Bluesign also helps our factory to function more efficiently, reduces our water usage and helps with pollution control.
